Subject index

Acrylic acid, 251
Adsorption, 57
Affinity membrane, 45, 271
Anion-exchange porous membrane, 135
Anodic alumina, 189
Antisymmetrical initial distributions, 79
Artificial lungs, 207
Asymmetric membrane, 117
Atomic force microscopy, 291
Aza-18-crown-6, 221

Bovine serum albumin, 135

Cadmium transport, 221
Cellulose acetate, 39
Characteristics, 279
Chitosan microporous membrane, 271
Conducting polymer, 303
Crossflow microfiltration, 261

Downwards flow, 109
Dye membrane, 271

Enhancement, 109
Epoxy ring, 33

Facilitated transport, 151
Facilitated transport of CO_2, 251
Fiber membranes, 207
Fluorinated monomer, 143
Flux, 261
Fouling and cleaning, 175

Gas adsorption–desorption, 291
Gas permeation, 143, 207
Gas separation membrane, 151
Gas separations, 57, 189
Gas sparging, 109
Glycidyl methacrylate, 33

L-Histidine, 45
Hollow-fiber membrane, 135
Hydrodynamics, 261

Immunoglobulin G, 45
Information entropy, 279
Isotherm, 227

Liquid membranes, 39, 221

Mass transfer models, 1
Mechanism study, 109
Membrane chromatography, 135
Membrane preparation and structure, 1, 117, 189
Methanol, 303
Microporous and porous membranes, 189
Mixed aqueous electrolyte solutions, 197
Model, 227
Molecular sieve model, 143

Olefin separation, 151
Organic/organic separation, 303
Organics/water separation, 163
Osmotic properties, 197

Palmitic acid, 221
Permeation, 57
Pervaporation, 117, 163, 303
Phase Transitions, 1
Phenolsulfonic acid formaldehyde cation exchange membrane, 197
Plasma graft polymerization, 251
Plasma polymerization, 143
Plasma-treated silica membranes, 143
Polymers, 227
Polypyrrole, 303
Polysaccharide, 237
Polysulfone membrane, 175
Poly(vinylidene fluoride), 117
Pore size distribution, 291
Porous media, 279
Porous membrane, 33
Preparation of ion exchange membrane, 251
Protein separation, 271
Purification, 45

Radiation-induced graft polymerization, 33, 135
Removal, 45
Ring-opening reaction, 33

Separation of CO_2 over N_2, 251
Silicalite-1, 57
Silver tetrafluoroborate, 151
Skimmilk, 261
Slab membrane, 79
Solvents, 227
Sorption, 227
Structural characterization, 291
Symmetrical initial distributions, 79
Symmetric ultrafiltration membrane, 291

Theory, 1
Thermodynamics, 1
Thiosulfate, 221
Time-lag classification, 79
DL-α-Tocopherol, 39
Transient-state transport, 79
Transmission, 261
Tubular membrane, 189

Ultrafiltration, 109, 175, 237

Water treatment, 117

Xanthan gum, 237

Zeolite membrane, 57, 163
